Clariant introduced INVOQUE™, a unique mineral-based performance dewatering system for the mining, coastal and riverine dredging and tunneling sectors. INVOQUE™ has been designed to deliver superior technical, cost and environmental performance. This innovative, high-performance system is an exceptional fit for the dewatering of hard-to-treat and fine sediments in a variety of industrial settings, across the fresh-to-salt-water environmental spectrum, delivering substantial economic, environmental and sustainability benefits for our customers.
